

CONVERSE

Talk is cheap, so don't pay more for telephone and internet.

RIGA Converse delivers enterprise technology at a small business price tag, combining flexible, competitive solutions and expert advice & support.

RIGA are NBN Business Accredited ICT Partners and can help you no matter who your current provider is or what your set-up.

We supply a choice of leading brands in hardware, including tablets/handsets that integrate your POS and free up valuable space on the front counter. All seamlessly backed up to secure cloud servers.

With expert installation and training, the **RIGA** team advise and implement the most economical and functional solutions to suit your business needs.

Are you paying too much for your telephone and internet?

How many levels of redundancy does your current solution offer?

Are you ready for the NBN cut-over? Have you safeguarded your phone numbers and lines?

Confused or unsure? We're the experts, so you don't have to be!

CONVERSE

Whatever your needs, we allow you to focus on the important aspects of running your business, while we ensure the practicalities of doing business are taken care of.

Our bundles package your voice calling and broadband, with the added backup of the mobile phone network to ensure important services like EFTPOS keep running - so you can do business no matter what the day holds.
